

## **ADDENDUM #1**

**Thursday, April 25th, 2019**

**Re: Request for Proposals RP# REC 2019-01 Request for Design Work of Skateboard Park Expansion.**

**From: Jim Millar, Director of Parks and Recreation**

---

**Upon receiving comments from a couple of interested company's at the site meeting, I realize that it would be advantageous to clarify the intent of this RFP.**

**Q. Will being awarded the RFP bid preclude us from bidding on the construction phase due to a conflict of interest?**

Please remove on page 3 under the Part II Introduction section #1.5 which reads "It is the intent of the Municipality that should the project proceed to the construction phase subject to the necessary funding being secured, the successful Proponent will be retained to provide construction services."

We are looking for a Proposal price to conduct the design work which would allow us to tender the construction phase through the Municipality at a later date.

This will allow for the Municipality to Tender out the Construction Phase with no encumbrances and provides everyone a chance to bid on that phase of the project without any conflict of interest.

**DO NOT FORGET TO BID REGISTER WITH LISA.**
