

Strategic Plan 2019

FINAL APPROVED 2019 Strategic Plan (Council Resolution # 2019-297, April 15, 2019)

Values

We believe that we are the level of government closest to the people. Staff and council will fulfill our mandates to the ratepayers and the municipal corporation by:

- Developing a team approach to municipal initiatives
 - Being fiscally, socially and environmentally responsible
 - Providing open communication
 - Being community oriented
 - Providing properly running infrastructure
-

Mission

We will protect the health, safety and well-being of the community, provide fiscally sound and efficient customer service, uphold the public interest and advance the community toward our vision.

Vision

We will preserve and enhance the unique character, community spirit, “small town” values and superior quality of life for all who live, work and visit in the Municipality of Brighton.

Strengths – Weaknesses – Opportunities – Threats

Strengths

Policies and Plans: The municipality has good policies (human resources, work orders, budgeting, maintenance) and plans (storm water, fire etc.) in place or in progress.

Capital Assets: The municipality has well maintained capital assets including its rolling stock (vehicles), parks, trails, industrial park lands, recently renovated municipal centre and library, water plant (less than 20 years old) with capacity, recent information technology upgrades and a new website.

Municipal Team: The municipality has professional staff with years of experience and a high level of work ethic who keep up-to-date on professional development and a dedicated group of volunteers on Council Committees

The Community: Brighton has a dedicated base of retirees ready to bring their expertise in a volunteer capacity and a pool of talented youth attending our four Brighton schools.

Weaknesses

Needed upgrades: There are upgrades needed in the municipality including more efficient buildings, bylaws, policies, recreation infrastructure, wastewater pollution control plant, fire truck replacements, audio-visual technology in council, and master plans.

Municipal team: The municipality needs to fill critical positions and prepare a succession plan.

Community and economic development: The municipality lacks community engagement and has lost its partnerships with local business and regional organizations.

Infrastructure needs: The municipality is separated by the 401 and the railroad tracks. These separations create concerns for emergency service response. With fire stations in Codrington and “downtown” there is a concern with emergency response in the south part of Brighton.

Opportunities

E-systems: The municipality could migrate to electronic work order and complaint forms, data and GIS collection.

Certifications: The municipality could on board a Community/Economic Development staff person who is responsible to aid local departments with certifications (firefighters – Industrial Park etc.), aid in grant applications and local partnerships.

Partnerships: The municipality may consider developing partnerships locally (Chamber, DBIA etc.), regionally (Quinte – County) and beyond (associations) to improve resource use, economic development and tourism opportunities.

Access to capital: The municipality has a large loan capacity and healthy reserves.

Threats

Revenues: Tax revenues remain heavily based on residential taxes.

Services: Our neighboring communities are well positioned to attract staff, businesses and aging residents.

Behaviours: With populism on the rise and a local demographic with high expectations of service, the municipality has many needs and wants to balance.

Strategies

Complete statutory mandates and review/implement past plans.

GOALS	RESPONSIBLE DEPARTMENT	DEADLINE DATE
Develop a strategic asset management policy	Finance / Public Works	May 2019
Prepare a development charges study	Finance	September 2019
Identify accessibility requirements in facilities	Planning	December 2019

Design and Construct addition to the Main Street Medical Centre	Public Works	June 2020
Design and Construct Industrial Park Servicing (Hydro/Gas)	Public Works/Planning	December 2019

Implementation of Strategic Plan

Approved by Council of the Municipality of Brighton, the Strategic Plan will provide a future outlook for the organization.

The successful implementation of the Strategic Plan is dependent on four (4) key elements:

1. Council adoption of the Strategic Plan including support and direction to focus on a long-term perspective of program and service planning, delivery and evaluation.
2. Annually, the Chief Administrative Officer and Senior Management Team are responsible for developing strategic initiatives in support of strategic values identified within the Strategic Plan. The business plans will identify the necessary resources/timelines to carry out the activities that support the Strategic Plan.
3. Continued involvement from employees, residents, businesses and key stakeholders to ensure that the Municipality of Brighton remains current in program and service delivery.
4. Continued monitoring and reporting of the progress of the Strategic Plan each year through the annual budget process. The budget process will provide an update on the achievement of the actions contained in the Strategic Plan and outline the initiatives and resources to move forward within the future.
