

PW 23-10 Main Street – Watermain Reconstruction
Phase 1 – Ontario Street to 100 meters West of Percy Street

Notice of Construction

August 14, 2023

Dear Business, Property Owner and/or Resident:

We are pleased to inform you that the City of Brighton has entrusted the forthcoming project operations to QBT Excavating & Services Ltd. The mobilization for the stated project limits on Main Street is tentatively scheduled to commence on August 21, 2023, and the work is projected to reach completion by November 1, 2023.

The primary components of the project scope encompass earth excavation and grading, removal and replacement of select concrete sidewalk and curb & gutter, removal and installation of watermain and water services, road resurfacing including hot mix asphalt milling and repaving, and the application of pavement markings. All activities have been meticulously planned to ensure minimal disruption to the local surroundings and infrastructure.

To carry out these tasks safely and effectively, Ontario Street and Princess Street will be temporarily closed to through traffic to facilitate watermain tie-ins at Main Street. During which time, and upon reopening of these intersections, Main Street will be maintained under lane-closure for the duration of the works.

While access for local traffic will be maintained during the lane-closure, we anticipate that local residents may experience minor delays within the construction limits. We sincerely apologize for any inconvenience this may cause and appreciate your understanding as we work to enhance the infrastructure of our community.

If you anticipate any special requirements or foresee any issues pertaining to accessibility, we request you notify the contact below at your earliest opportunity before the project commencement date.

We greatly appreciate your cooperation and patience during this construction phase.

In the event that any issues arise during construction, please feel free to contact the following representative:
